TIP

If you just want to find a family name, go straight to the Index (p. 76), which will give you the page number of the full inscription. The Memorial Reference number will also enable you to find the exact location on the Plans in section 1.

PHOTOGRAPHS

All graves and plaques have been photographed as part of this survey. Access to photos is available online from the church website

www.stmarythevirginbuckland.net/resources

Photos are indexed by PLOT NUMBER, in sequential order

LOCATION PLANS

Grave plots – 1 to 359

Ashes plots – A0 to A100

Wall plaques A101 to A107 &
Rose Bed plaques – A108 to A160

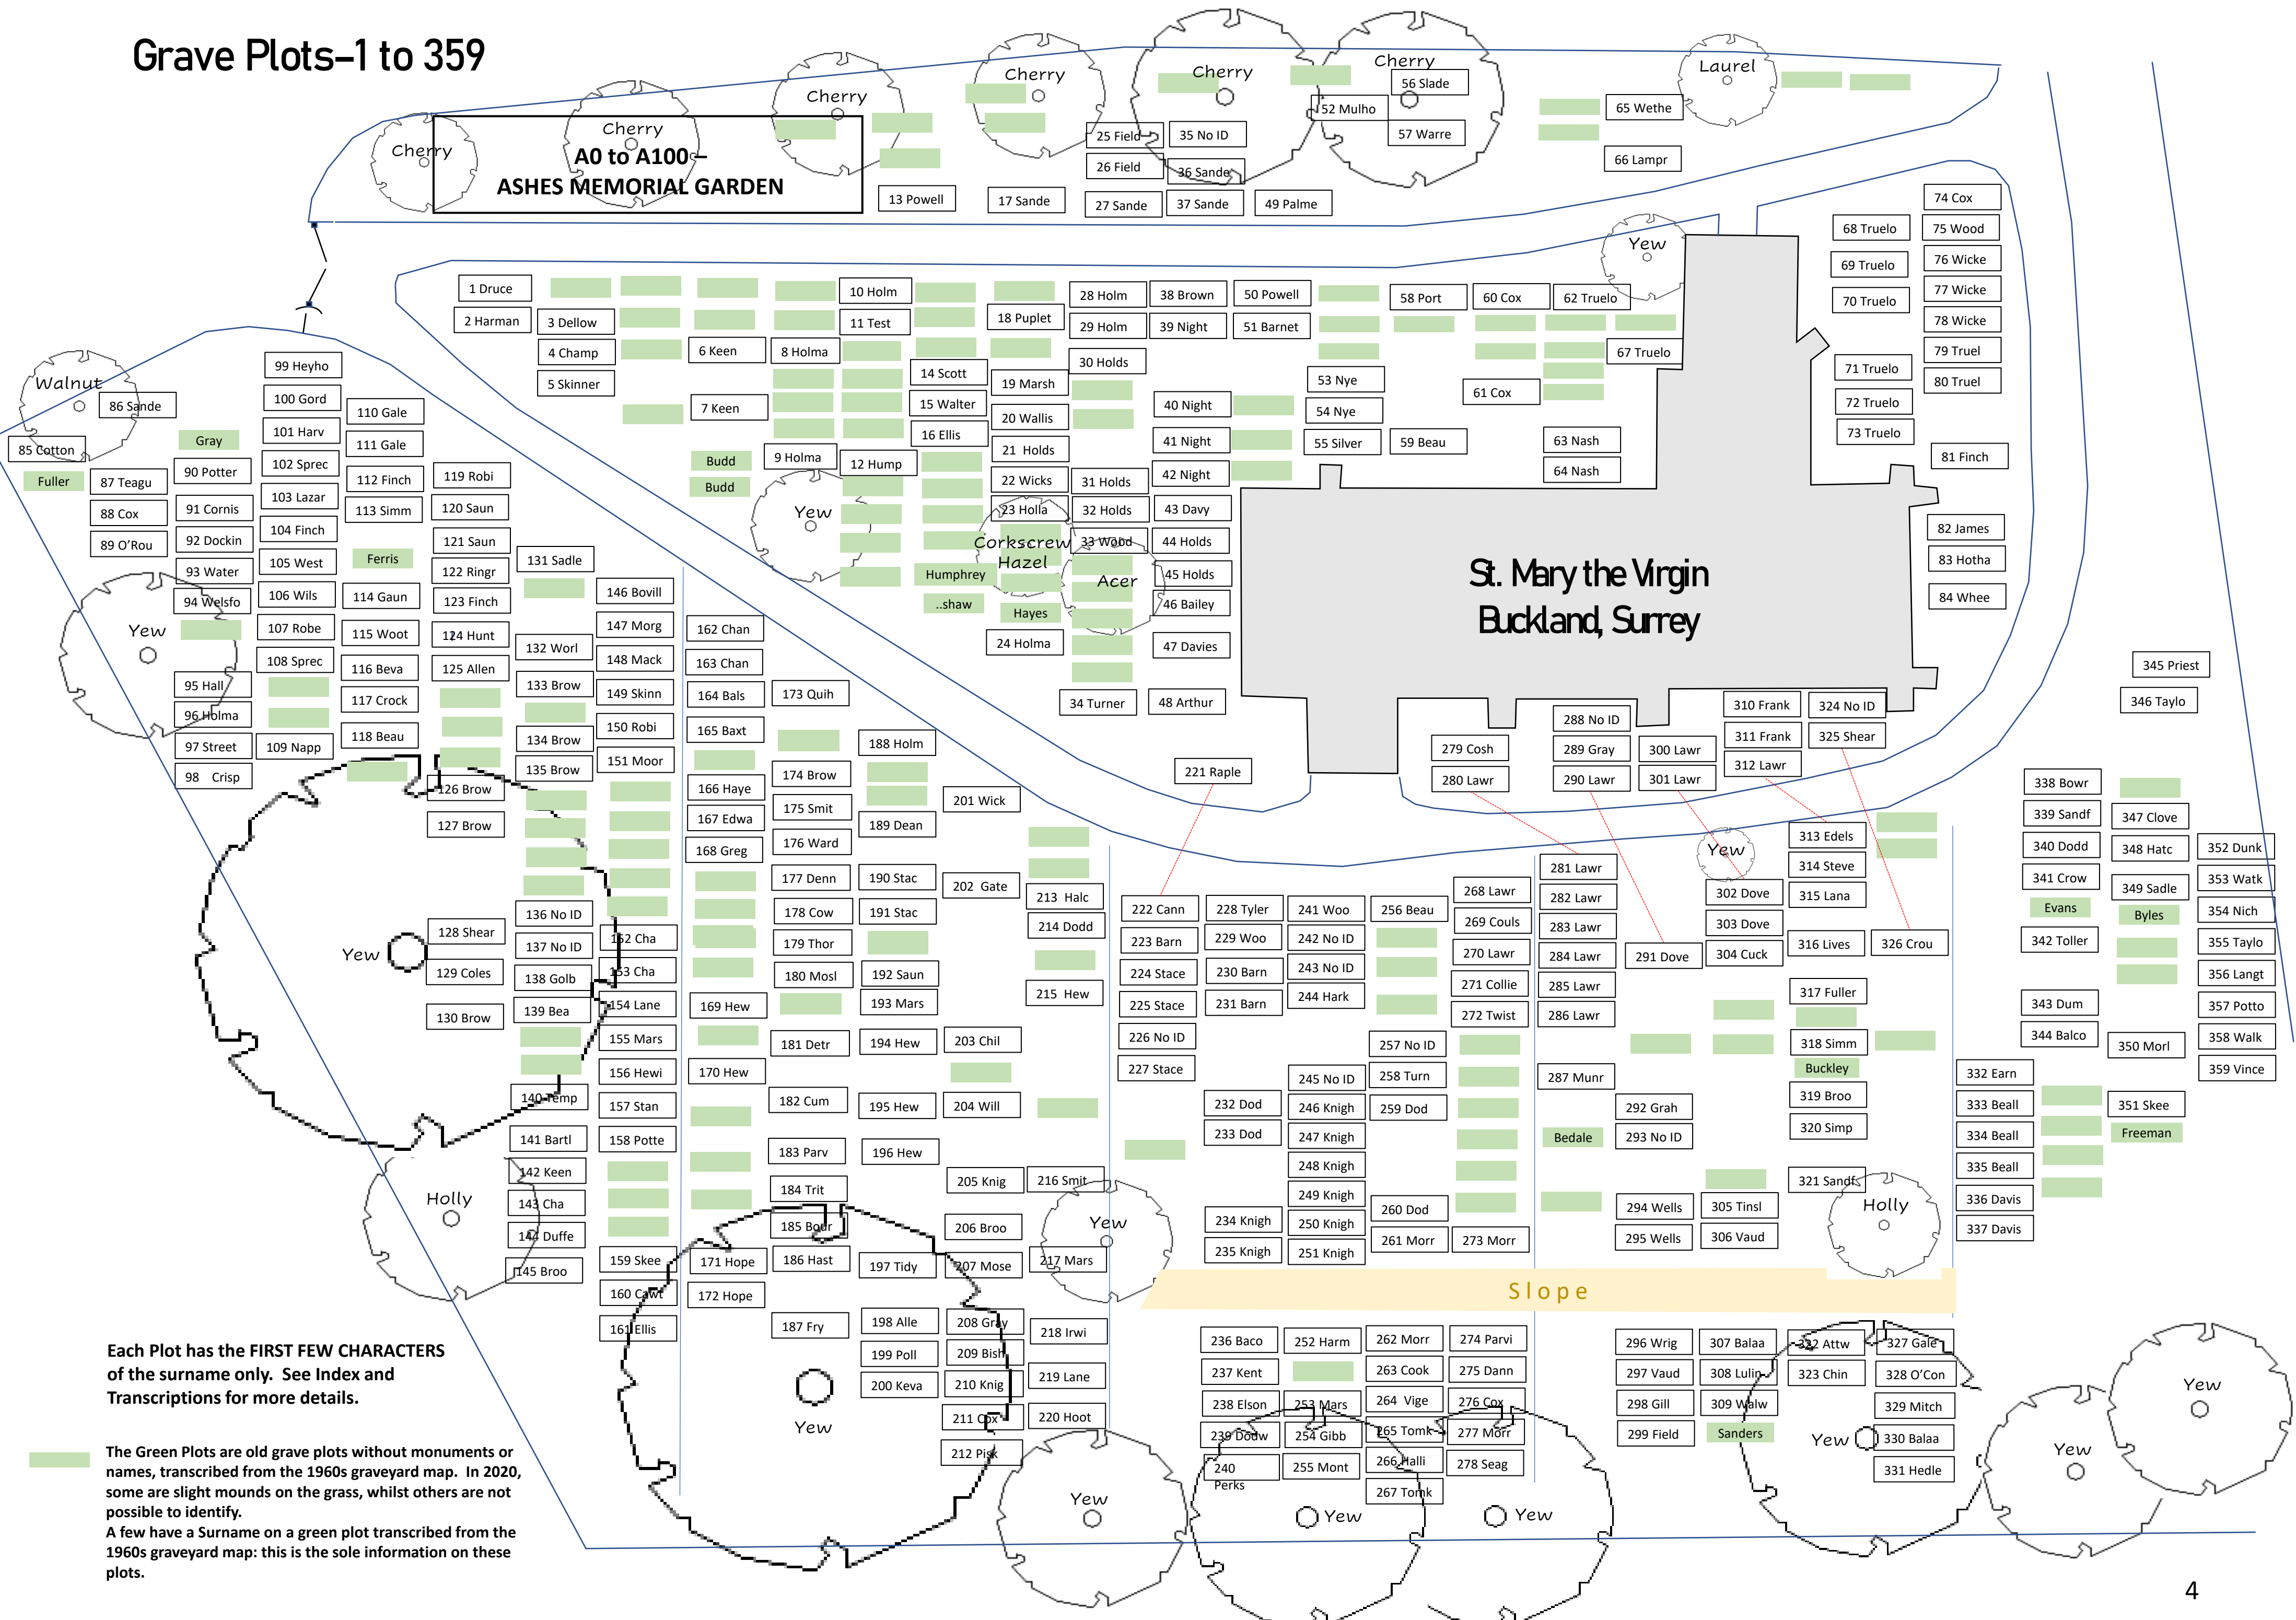

Graves are numbered 1-359. The rows of gravestones run north-south. In each Block (A to F), numbers start at the orange arrow, starting on the top-left (north-west) and proceeding south to the end of the row. Numbering continues on the next row to the right (east), sequentially from North-to-South.

- Notes:**
1. The Ashes Memorial Garden was established about 1990, just to the left of the lychgate, facing the A25 as you enter the graveyard.
 2. This Plan of the Ashes Plots numbered 1 to 100 was established (on a paper plan) about 1990. The numbers have not been changed on this version (in Excel). They have been given a prefix 'A' code to distinguish them from the Grave Plot numbers.
 2. Some Ashes plots have memorial stones (37 of them), with inscriptions and photographs recorded in this survey.
 3. Other Ashes Plots have no memorial stones, and only the names, and dates (if known) are recorded in this survey.
 4. Plots with just a number are thus far un-used. When allocated, this plan can be annotated, and updated on the Excel-based record.

Comments, Corrections & Additions

1. Background

At our church of St Mary the Virgin, Buckland in Surrey, we knew that the recording of graves or 'Monumental Inscriptions (MIs)' was rather patchy. The church owns two documents, held in the church vestry:

Firstly, a **Graveyard Plan dated 1962, updated Sept 1987**. This hand-drawn and annotated plan had c.300 graves marked. Around half-these had a surname written in, recording deaths mostly in period from the 1960s to 1987. There was no index of names and no listing of grave inscriptions.

Secondly, the '**Old MI Index**' (as we have called it), which is a typed-transcript with a 'stamp' of the 'Society of Genaeologists'. It is undated, but we guess from the typescript that it dates from the 1950s or 1960s. However, the most recent grave on the list was dated 1888, so we can only assume that this typescript is a transfer of a lost handwritten document dating from c.1888.

It contains 156 burial inscriptions from graves dating from 1716 to 1888 (14 pages), and has a surname index at the back (3 pages). There is no corresponding map. This document is also held by Surrey History Centre, Woking.

Hence there was almost no record of graves from 1888-1962. The accuracy of the records above was not known. There was no certainty how many of the early graves recorded in the Old MI Index 1888 still survived.

The purpose of this survey is therefore to generate a comprehensive, indexed list of the monumental inscriptions, with photographs, to supersede the above documents with one document source that is up-to-date in 2020. The primary users are expected to be:

- the Church, for visitors trying to locate graves of relatives
- Local History libraries (Betchworth 'Meg Ryan Archive', Redhill Local Studies Library & Surrey History Centre) for public access of genaeologists
- Online access via the Buckland Website.

There are several ways to record graveyard surveys – the easiest being to take lots of photos and record just names and dates. Websites such as 'Find a Grave.com' and 'Billion Graves.com' encourage this approach, but it is surname-focussed, and it is not readily possible to then assemble a 'site document' for a particular church.

Hence we designed the following method which allowed us to keep editorial control.

2. Survey Method

Following an appeal in Buckland Parish Magazine, a team of 6 volunteers came forward. We split the graveyard into arbitrary 'blocks' on the plan and allocated each to a surveyor:

	Block	Grave Plots
Tim Westwell	A	85-162
Martin Boyce	B	163-220
Everett Leeds	C	221-278
Ann Adams	D	279-331
Bridget Ferns	E	332-359
Duncan Ferns	F	1-84
Steve White	Rose bed and Ashes memorials	

Without this team of volunteers this survey would not have been possible – so a big vote of thanks to everyone involved for giving up their time and expertise. The survey and report were completed with no funding requirement from the Church or others.

Each member of the survey team was given the following guidance:

Site Plan

- The 1987 Graveyard Plan needs 'validation' (is it correct?) & any extra graves need adding by annotating the map
- Divide the graveyard into 'blocks' (A-F) – one person takes a lead on each Block (see above table). For their block, each surveyor comes up with a sequential numbering scheme (down the rows), starting 'Block Letter' followed by number 1 to x (e.g. B1, B2, B3).
- If the individual surveyor misses a grave in a row, they must change their numbers to fit it in
- On the Paper Plan, write the Grave numbers & Surname (e.g. B5 Surname of first mentioned person). If the surname is not legible, record 'Unreadable' as surname (e.g. B5 Unreadable)

The above references will be used for the photo names and in the spreadsheet.

Photographs

- Each surveyor takes a picture of each grave, ideally in the sequence of the numbers they have given them on the plan. (As the Plan also identifies the surname, there is a double check here). Note occasional graves have writing on 2 sides and therefore need 2 photos.

Photo tips:

- Try to take the picture of the full gravestone, as low as possible so it is 'square-on'
- If the gravestone text is in the grass, pull back as much of the grass as practical without digging
- Do not remove lichen or moss.
- We need a photo even if you are sure that nothing or little can be read.
- Each photo MUST be Renamed. In Documents, Right-click on photo, select [Rename] and use the BLOCK NUMBER, GRAVE NUMBER & First SURNAME (eg B5 Jones) - with a space between B5 & Jones
- When all photos for your block are completed with the correct filenames that correspond to your plan, please submit them to DF (via GoogleDrive or on USB stick)

Spreadsheet

- DF supplied a spreadsheet (Excel) with headings and example records
- The spreadsheet includes the words of the inscription. This can be read either:
 - from the photos
 - direct from the grave
 - a combination of the above

Grave Reading tips:

- If it is pre-1888, check if it is in the 'Old MI List', note the number in that list, and check if the inscription you can read is correct. If you can no longer read everything NOW, we can assume that the old inscription is correct.
- The Surveyor can decide if they want to do the spreadsheet work or not. The alternative is to write the inscription on paper (or type in Word) & submit to DF. Each record MUST have its' plan reference (eg B6 Jones)
- Personally I have found it easier to interpret difficult-to-read graves by enhancing the picture. Some are immediately readable. If not, then enhance it and enlarge it: The following works in Windows 10:

Open the picture and use [Edit & Create] > [Edit] > [Filters] > [Enhance your photo]. If necessary for further clarity use [Adjustments] > move the [Light] & [colour] slide-bars

While clicked on [Adjustments], the mouse roller wheel will zoom in/out, and 'Hold left mouse button and move mouse', will scroll around the picture'.

IF YOU HAVE USED THE ENHANCEMENTS to read the gravestone, save the file and use the enhanced photo for the official archive! (Windows 10: whilst in photo [Edit] don't click 'save a copy' but select [More Options] and click [Save])

By having the Excel spreadsheet open in a separate window you can type in the inscription on the spreadsheet with the picture next to it on the screen.

- Or just do your best to read it in from the gravestone!
- If you can't read some words or letters, insert XXXXX XXXX or JenXXX where the number of X's is approximately the number of missing characters.
- Complete the spreadsheet with each full inscription, and also extract the column of names, Date of birth, Date of Death, and other information if known.

Presentation

- When we are finished, the Grave Plan & Photos will be renumbered sequentially, 1- 400 or however many graves we have. [This makes it easier to find graves without the block-letters].
- The spreadsheet as drafted will be the core document, printed in Excel.
- The extract of names (with dates of birth & death), will form a name index, (with plot number)
- The plan will be attached with the grave numbers & surnames.
- The e-version can have links to the photos of all the graves from the spreadsheet
- All the surveyors will be acknowledged
- It can be made available on the church/village websites and submitted to Surrey History Centre, and a printed copy can be left in the church for inspection.

3. Findings

The highlights:

359 GRAVES WITH SURVIVING MONUMENTS

ONLY 7 GRAVES (0.18%) NOT IDENTIFIED

OLDEST SURVIVING GRAVE – 1713 (plot 241)

OLDEST PERSON – 102 years (plot 53), lived 1743-1845

MOST RECORDED FAMILY NAMES –

1st – TRUELOVE – 30 RECORDS

2nd = DOD / DODD – 28 RECORDS

= LAWRENCE – 28 RECORDS

3rd - BEAUMONT – 23 RECORDS

OVER 500 PHOTOS OF GRAVES, ASHES STONE & PLAQUES

975 INDEXED NAMES

Some of the detailed findings are worth noting:

- 1 Of the pre-1888 graves, the 156 inscriptions in the 'Old MI Index' were found to be reasonably accurate, though sometimes memorial verses were omitted. Where possible, these have been added in this survey. In the case of badly weathered gravestones, we found that it was possible to match certain names, dates, words and spacings with this Old MI Index. Confirming a 'match' enabled us to record the full inscription in our spreadsheet, with a comment on the current gravestone condition & illegibility.

Eight pre-1888 gravestones were not recorded in the Old MI Index, so it appears that it was not 100% comprehensive:

Grave plot (this document)	Surname	Year of last inscription
32	Holdsworth	1810
59	Beaumont	1862
63	Nash	1780
64	Nash	1781
67	Truelove	1876
202	Gates	1764
315	Lanaway	1880
351	Skeen	1849

Pre-1888 graves not recorded in Old MI index, but still present in 2020

- 2 Many graves marked on the 1987 Plan had no headstone. We assumed that these were real grave plots, but we did not number them. They are recorded on the new Plan as green 'blocks' on the plan, which could not be identified with names.
- 3 The 1987 plan was not always accurate in terms of alignment and spacing of graves. The church vestry extension of 1968 was not on the plan. There was also a drafting error on the west corner, which appeared to have a large empty area which in reality was much smaller than the plan showed. This led to the decision to 'start again' with the plan, and generate it in digital format so it could be easily updated. However, the surnames on the plan were largely accurate.
- 4 The trees on the 1987 plan were seriously mismatched to those on the ground, so each tree and its canopy spread as it appears in 2020 were replotted on the new plan.
- 5 Almost all graves faced East, as normal in Christian graveyards. However, there are several anomalies to this pattern: some of which are thought to be memorial headstones without burials. The 'north-south' lines of adjacent graves are often irregular 'wobbly' lines on the ground. However, for purposes of simplicity, it was decided to plot all the graves in straight lines – a simplified map to aid interpretation and finding the graves. (Not unlike the London Underground map, which is incidentally, rather appropriate...this is perhaps the Buckland Underground Map?)
- 6 Memorial Ashes Garden: The small plots for the sprinkling of ashes are marked on a pre-existing plan from 0-100. It was considered logical to retain the numbering on the existing plan. Hence there are many of the numbered plots not yet taken up and used. The statistics are as follows:
 - 37 of the 100 plots are used with a memorial stone, the words of which are recorded, and photos captured
 - 30 of the 100 plots are used with NO memorial stone
 - 5 of the 100 plots are reserved for known names (to be adjacent to ashes of deceased relatives)
 - 27 plots are as yet unallocated.
- 7 COMMEMORATIVE ROSES: There are 62 Plots for Standard Roses. The majority have a memorial plaque with a peg in the soil. The words of plaques have been recorded and photos captured. Seven roses have a missing plaque, but may be reallocated in future. Some roses are the **only** memorial to an individual, whilst others also have a gravestone or ashes stone. Where these have been observed cross-references are given.

Life Stories

Everyone has a valuable life story. We know about very few. Here are a few snippets:

Plot No	Name	
3	Joseph Dellow	Joseph was born in 1833. Age 25 he became the Coachman for Mr Beaumont at Buckland Court, a job he held until he retired. He and his wife had 17 children born in Buckland, only 2 of which died in infancy. Joseph and his wife celebrated their Golden Wedding in 1908, with 11 children and 23 grandchildren present.
47	Jake Davies	<p>Hubert James (Jake) was a 'barrister-a-law, died with 345 others in the air crash near Paris, 3 March 1974, aged 49 years'. He lived with his family at Camrose, Rectory Lane Buckland. At the time, this was the world's worst air crash – as Turkish Airlines DC-10 brought down by an unsecured cargo door, causing explosive decompression. The headstone is nestled by the church wall, facing west, probably denoting this is a memorial stone, not a burial.</p> <p>The Davies family kept donkeys and would bring one or two to process in our Church's Palm Sunday services. Jake's wife Elizabeth, played piano for Reigate School of Ballet (run by Shirley Knight). She moved to Little Abbots, Betchworth after Jake died.</p>
57	Warre family	James Warre was renting Buckland Court in 1833, where he died. His son, also commemorated, is Leut. General Sir William Warre who was born in Oporto, Portugal in 1784. William fought with the Anglo-Portuguese army led by the Duke of Wellington, at nearly every major battle in the Peninsular war (1807-1814). These battles re-established Portugal's independence. He was the Director of 'Warres Port' – a world-leading brand of Port, a company still operating today.
62, 67 to 73, 79,80, L139,L140	Truelove family	A Buckland family with 12 separate gravestones commemorating 30 family members
63 & 64	Joseph Nash & family	'Joseph Nash (1737-1806) of Hartswood in this parish, aged 69 years. Hartswood was the Manor House of Buckland Detached, on the A217 South of Reigate near Sidlow Bridge. Unfortunately, this is not the 'famous watercolour artist' Joseph Nash, who lived a little later (1809-1878). Believe that this Joseph Nash was a tenant farmer at Hartswood.
147	Captn. Richard Croke Morgan	Commemorated by an unusual, tall Celtic cross in red sandstone. He died 18 Feb 1919, aged 35. He was educated at Winchester College and University College Oxford. He was serving in WWI in France but contracted septic pneumonia on his return home from France. His wife, Mabel Bovill, was a Buckland lady brought up at Broome Perrow, and Richard had returned to the home of his parents-in-law in Buckland to recuperate. [He is not commemorated on Buckland War memorial because he did not live in the Parish, which was the guideline for inclusion at the time].

158 & A138	Harry Potter	Posthumous fame due to JK Rowling. Our very real Harry Potter (1903-1963) served as PC 115 in Surrey Constabulary for 30 years, detailed on his headstone.
356	Spencer Langton	Spencer Langton (1871-1938) lived at The Cop, Old Rd, Buckland. Educated at Eton & Cambridge, he served in WW1 as Captain in the London Regiment. He died in Paris, but his body was repatriated for burial in Buckland.
A103	John Overton	John Overton was a WW2 Pilot in RAF's Bomber Command squadrons, who received the Distinguished Flying Cross (DFC) medal in 1944. He lived with his parents at Long View, Colley Manor Drive, Reigate. Two years after the war, still aged only 25, he took out a sailing dinghy from Salcombe Devon, and either due to accident or suicide, he was declared missing at sea. His body was never found. His mother funded the planting of the cherry trees as his memorial in 1948 (replaced in 2005). John Overton is not commemorated on the War Memorial.
A62	Paul Horsting	A British 'ex-pat' aircrew Captain of Cathay Pacific Airlines long-haul flights, based in Hong Kong, who retired to Thailand. He contracted cancer and wished to be treated at the Royal Marsden Hospital in Sutton, choosing Buckland as an attractive nearby location. He rented 3 Buckland Court Gardens for 5 years – all the time having cancer treatments.
A123	'AGR Rector of Gatton 1894-1907'	AGR was Alfred George Rogers (1857-1946), who served as Rector of Gatton from the dates on the plaque (1894-1907). Gatton Rectory (later called Kingsdown) was on Rockshaw Rd Merstham, which is where he lived whilst Rector. He moved to another house (not identified) on Rockshaw Rd until he died in 1946.
108	William & Elsie Spreckley	Alfred's daughter, Elsie Mabel Rogers, became Mrs William Spreckley living at Pilgrim Cottage (now Spindrift), Old Rd, Buckland. Hence AGR's link to Buckland. William and Elsie attended Buckland church, and William was Churchwarden for c. 30 years. They are buried in plot 108.
102	Ruth Spreckley	The daughter of William & Elsie, Ruth Spreckley (1912-2003), was a stalwart of this church living all her life in Buckland and now buried in this churchyard (plot 102)

Some of the personal life stories will be selected for local publication in the Buckland Parish Magazine, under the title 'Buckland Past Lives'. This series of articles began in August 2020.

4. Outputs

This work has generated **three location plans** (generated in PPT):

- Gravestone plots 1 to 359, labelled with the first 4 or 5 characters of the surname
- Ashes memorials A0 to A100
- Wall Plaque memorials A101-A107 and Rose Bed plaques A108 to A160

In addition, church plaques on the interior walls are numbered A161 to A176.

There are **three spreadsheets** (generated in Excel):

- Gravestone memorials, recording the full inscription, type of memorial (eg Celtic cross), correlation with the 'Old MI Index' number (if any), listing of names with date of death and year of birth. In addition there is a column titled 'Lived at ...' if their home was known by the research team or by reference documents; and a 'comments and references' field for additional information
- Ashes Memorials, Rose-bed and Church Plaques, with the same information fields as above
- 'Lost graves' (since 1888) MIs, obtained by a reconciliation between the 1888 Survey and the new 2020 Survey.

There is a **Final Report** – this document – which combines this explanatory text (generated in Word) with the above documents – all converted to PDF format with sequential page numbers.

Finally, there is are **Photographs of ALL MEMORIALS**: 359 graves and over 100 Ashes Memorials, Rose Bed & Church Plaques, available via a link on the church website at <https://stmarythevirginbuckland.net/resources/>

The photographs are indexed by the plot number followed by the surname. You will need to find plot numbers in this document PRIOR to looking for specific photographs.

5. References

The following pages of the MIs contain some comments and where it is known, the houses or roads in Buckland where the deceased used to live.

Some of this information is from the knowledge of the survey team, who have known many of those deceased in the past 30 or so years.

Other information has been collated from publicly-available sources, including:

TRANSCRIPTS OF 'LOST GRAVE' MIs

Interpretation Guide

This table lists all graves recorded in the 'Old MI Index' dated c.1888, from 1 to 156, identified by the first named-deceased.

If the grave has HAS BEEN FOUND in the 2020 survey, the full inscription is given in section 3, with the 'New Grave Plot Number' cross-referenced here in this section.

If the grave was NOT FOUND in the 2020 survey, the full inscription is provided in this section. We can refer to these as 'Lost Graves' – present in 1888, but no longer present in 2020.

The Lost Grave names are indexed together with others in the INDEX, indicated as follows:

Prefix L, with numbers corresponding to Old MI Index (1-156)

The location of these Lost Graves within the graveyard cannot be determined.

INDEX

Of all Names

Interpretation Guide

All names appearing on memorials are indexed.

Those who are the 'subject' of the memorial have their date of death recorded in 'Year.Month.Day' format. The year of birth is estimated by subtracting their age from the year of death, and hence is subject to an error of +/- one year (depending on their date of birth).

Those who are named as family members (e.g. husband, mother, father) obviously have no date of death recorded, and these names are indexed in italics.
